

Information – permit to use the Transportation Service with specific conditions

If there are particular reasons for doing so, a Transportation Service permit can include specific conditions, e.g. travelling in the front seat, direct journey, or travel using a certain type of vehicle. Consent to specific conditions is granted if there are difficulties that would otherwise prevent the person entitled to use the Transportation Service from travelling.

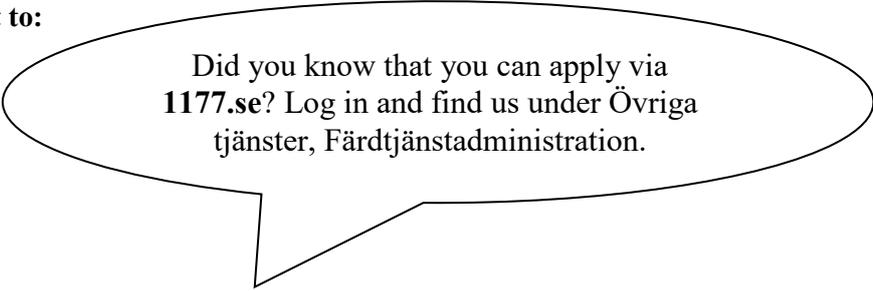

When an application is received, the Special Transport Service makes an assessment. If necessary, information is obtained in the first instance directly from you. Information from other persons is obtained if you have given your verbal or written consent. Information provided by you and other persons will be stored in a personal data register. Information is protected and processed according to the stipulations in the Public Access to Information and Secrecy Act, and in the European General Data Protection Regulation (GDPR). For further information, please go to www.lanstrafiken.se.

An application must be in writing and, if necessary, be accompanied by a medical statement. You will be notified of the decision in writing. The assessment will be made as quickly as possible following receipt of your application.

Further information about the Special Transport Service is available at: www.lanstrafiken.se or by contacting the assessment officer on 0771-55 30 00, weekdays 10am-12 noon, or by email at fardtjanstenheten@regionorebrolan.se

Applications should be sent to:

Region Örebro län
Färdtjänstenheten
Box 1613
701 16 Örebro
