

Information – permit to use the transportation service with special conditions

If there are specific reasons for doing so, a permit to use the transportation service (Färdtjänst) can be linked to special conditions, e.g. travelling alone, travelling in the front seat, or travelling using a certain type of vehicle. Consent to the inclusion of special conditions is granted if there are difficulties that would otherwise prevent the person entitled to use the special transport service from travelling.

Länstrafiken is responsible for the transportation service in the county, and it makes an assessment following receipt of your application. Information regarding an application is obtained in the first instance from the applicant. Information from other sources is not obtained without the verbal or written consent of the applicant. Information provided by you and other parties will be stored in a personal data register. Information is protected and processed according to the stipulations in the Public Access to Information and Secrecy Act and the European General Data Protection Regulation (GDPR). For further information, please go to www.lanstrafiken.se.

The application must be in writing and, if necessary, be accompanied by a medical statement. A decision will be notified in writing. An assessment will be made as quickly as possible following receipt of your application.

Further information about the transportation service is available on our website, www.lanstrafiken.se, by calling an assessment officer on 0771-55 30 00, weekdays 8am-12 noon, or by email at fardtjanstenheten@lanstrafiken.se.
